

WP45X4562

MOSAIC standard

6-keystone module frame

6-module frame, part of the modular socket system. Made of plastic, it allows the installation of adapters with dimensions of 22.5 x 45 mm and 45 x 45 mm. The modular socket system can also be integrated with electrical outlets.

Technical specifications

6-keystone module frame

Color	RAL 9010
Operating temperature	- 5 °C/ + 45°C
Mounting hole dimension:	135 x 45 mm (3M)
Material	ABS plastic

MOSAIC, or one standard

The MOSAIC standard is a standardized size of 2x2 inches, or approximately 25x25 mm. Surface-mounted or concealed elements included in the so-called 'white assembly', such as LAN, electrical, and multimedia elements like electrical sockets, telecommunications adapters, or multimedia modules, are made in this standard. This standardized size ensures that the adapter will fit most supports mounted in frames as well as in trunking in surface installations.
